

1. place scores.csv and digital_health.ipynb in the same directory.
2. Make 2 folders in the same directory.
3. Name one folder "Control" (mind the capital "C"). Place all the contents of the Control folder from the ZIP (CSVs) in the "Control" folder.
4. Name the other folder "condition". Place all the condition files in the "condition" folder from the same source.
5. Then you can run all the cells in the digital_health.ipynb in order.
